Among us mod menu always imposter ios

Between Us is an online multiplayer social deduction game developed and published by American game studio InnerSloth and released on June 15, 2018. The game takes place in a space-themed environment where actors each take on one of two roles, most of them teammates, and a predefined number being impostors. Wikipedia play online or on local WiFi with 4-10 players as you try to hold your spaceship together and return to civilization. But be careful... As there might be a foreign impostor on board! One crew member was replaced by a parasitic shapeshifter. Their goal is to take out the rest of the crew before the ship gets home. The impostor will sabotage the ship, sneak through vents, cheat, and frame others to remain anonymous and kill the crew. Between us while everyone's fixing the ship, no one can talk to maintain anonymity. Once a body is reported, the surviving crew will openly death who they think posed. The impostor's goal is to pretend to be members of the team. If the impostor is not voted out, everyone returns to maintain the ship until another body is found. If the impostor is voted out, the team wins! Between us is a multiplayer game, supporting four to 10 players. One to three of these players are randomly selected in each game to be impostors, while the rest are teammates. The game can take place on one of three maps: a spacecraft (Skeld), a down building (Mira HQ), or a planet base (Polus). [1] Team members are given tasks to complete around the map in the form of mini-games, consisting of maintenance work on essential systems, such as electrical rewiring and refueling engines. Impostors are given a fake list of tasks to integrate with team members, and have the ability to sabotage map systems, cross vents, identify other impostors, and kill team members. If an actor dies, he becomes a ghost; Ghosts can pass through walls, but can only communicate with the world in limited ways and are invisible to everyone but other spirits. [13] All players, except the ghosts, have a limited visual cone, which allows them to see other players at a certain distance and not blocked around them, despite the top-down perspective of the game. Team members win by completing all tasks before they are killed or by finding and slaying all impostors. For an impostor to win, they must escape a countdown of sabotage or kill enough teammates, so the number of impostors equals the number of crew members. Ghosts help their living teammates by completing tasks (as a teammate) or committing bruises (as an impostor). When an impostor commits sabotage, there is an immediate result (such as all lights off or doors closing) or a countdown begins. In the latter case, if the sabotage is not resolved before the countdown is over, the impostors will win. Bruising can be solved by live actors in different ways, depending on what sabotage it is Mod Game: Between Us Mod Menu 2020.9.9 – Version: 2020.9.9 – Root Needed: No – Internet Required: Yes – Size: 58.58 MB – Price: Free – Support: Android – Categories : Action – GooglePlay URL: Here *1 FEATURESMOD* – [Player Menu] – Show Team / Impostor – Do Not Kill Cooldown – End Vote – Go Through Meeting – Unlimited Emergency Meetings – No Cooldown Meeting – No Cooldown Door [Impostors] – Tamper Lights – Tampering – Torch Distance – Close Doors – See Wind + Chat – Whole Tasks – Select Text – Spam – Color Sampler – Color Pointing – [Motion Menu] – – Speed – [Host Menu] – – Always Pretending – Endgame [Impersonating Forever] – Endgame [Winning Team] – Instant Victory [Allow Before Starting] – Random Colors – Random Hats – Random Skins – Random Pets – Change Everyone's Name – [Account Menu] – Smart Skins Ponies – Unlocked Pets – [Other Menu] – – No Advertisements – No Penalty to Leave – Increased Report [Buggy] – Confirm Injected – Long Kill – Player 2/3 = Impostor [Always Requires Impostor to Be On] – [Passive] – Always Visible Chat Game Description Between Us is a helpful dream activity game designed for game meetings with five people anyway. Customers will be able to operate here in two head positions: in the function of silent characters or as outlaws. In the main case, the legends should understand the enemy and prevent him from taking them all out, and in the second, in fact, destroy any simple occupant. Both won't be anything but hard to do, since the game is loaded with arbitrary cases that can fundamentally change the entire cycle for the two main gatherings of friends and the scalawag.
